Re: BEVERLY - Public Water Supply and
Water Pollution Control - "Nike
Facility" - Wastewater Treatment
Facility - MB/NE 83/008 WS

Gentlemen:

By letter dated January 19, 1983, the Metropolitan Boston/Northeast Regional Office of the Department of Environmental Quality Engineering submitted to the Beverly Airport Commission a list of mandatory requirements which were to be incorporated into an executed agreement countersigned by the Airport Commission, the Executive Agency of the City of Beverly and the Beverly Board of Health, relative to the subject facility. (A copy of the correspondence is enclosed). The requirements were negotiated and verbally accepted by representatives of the Airport Commission at a meeting held at the Regional office on January 13, 1983.

To date, the Department has neither been contacted nor notified, relative to the status of the facility.

Please notify the Department in writing, within fifteen (15) days of your receipt of this correspondence to what action has been undertaken to effect compliance with the mandatory requirements as delineated in the Department's letter of January 19, 1983.

Very truly yours,

Steven G. Lipman, P.E.
Deputy Regional Environmental Engineer
